EXPERIENCE

Balance Restored

Drawing inspiration from the ancient wisdom of Circadian rhythms and the moon's gravitational pull, we orchestrate each day with two distinct phases: Lo-Tide Mornings and Hi-Tide Afternoons. According to Ayurvedic time principles, being in sync with the day creates an equilibrium from which our minds and bodies perform at their best. Each day, we invite you to align with the harmony of these phases as we celebrate the transition with a small ceremony to show gratitude for the innate connection that binds us to the universe.

LO-TIDE MORNING

As the sun ascends, Lapis transforms into a haven of serenity. For guests seeking a grounding experience to quiet the mind and soothe the spirit, Lo-Tide Mornings offer tranquil lighting, calming melodies, and aromatherapy in comforting essence of lavender and chamomile. Immerse yourself in wellness rituals like the Aufguss, an evocative experience held in the Event Sauna, guiding your senses on a journey of mindful restoration during this meditative Lo-Tide phase.

9AM – 2PM | DAILY

HI-TIDE AFTERNOON

As the day reaches its zenith, Lapis surges, infused with energy. Socially-focused, the Hi-Tide atmosphere brightens with upbeat music, vibrant illumination, and exhilarating aromas like pine, citrus and spearmint. The Aufguss experience in the Event Sauna becomes an invigorating party atmosphere to awaken communal bonds and activate the mind. Recommended for groups, Hi-Tide Afternoons offer a dynamic atmosphere to reenergize the body and soul.

2PM – 7PM | DAILY

EVENT SAUNA

The Art of Aufguss

From the German word for “infusion,” Aufguss is a treasured Nordic spa tradition where heat, music, and communal connection converge. Step into Lapis Spa’s specially created Event Sauna, an atmospheric theater-in-the-round style room where the Aufgussmeister takes center stage. Over the course of 15 minutes, you will experience a one-of-a-kind performance incorporating aromatherapy, choreography with dancing towels, and hypnotic imagery projected onto a 110” LCD screen.

Please note the Aufguss experience is customized to suit both the Lo-Tide and Hi-Tide phases, offering a more soothing journey in the beginning of the day and a more dynamic energy in the later hours.

Ayurvedic Treatments

Rooted in more than 3,000 years of wisdom, Ayurveda is one of the world's most ancient forms of healing. Seeking to balance the elements found naturally within us, the following treatments address the alignment of the three doshas – mind, body, and behavior – to achieve sublime equilibrium.

AYURVEDIC MASSAGE THERAPIES

FIVE-POINT STAR MASSAGE

Highly specialized and energizing, this stimulating massage focuses on reflex points of the five extremities: the hands, the feet, and the head. A warming exfoliation precedes a tension-melting massage for both hands and feet, which are then enveloped in soothing heated wraps. A restorative scalp and head massage follows, sealing the release of stress head-to-toe.

Benefits: full-body relaxation, and concentrated tension relief

The seven chakras are known as the main energy centers of the body, running down the spine in alignment from the crown of the head. During the Chakra Harmony Massage, each chakra is addressed in turn with care and compassion, with each hands-on movement focused on restoring inner balance to the body. An Ayurvedic Kansa massage wand enhances the full-body experience, where the intentional placement of chakra stones and powerful aromatherapy all converge to uplift the spirit while positively grounding the body.
